

SMART Board® 7000 series

Our most advanced SMART Board, the 7000 series includes exclusive iQ technology bringing devices, lesson content and software together for a cohesive educational experience. It includes only the most advanced features to help teachers and students collaborate with ease.

Designed for whole class, small group and individual learning, this is the pinnacle of the SMART Board experience.

1-year  SMART Learning Suite software included.

**Simultaneous Tool
Differentiation**
Available in two sizes
75" | 86"

SMART®

An all-in-one technology exclusive to SMART Board interactive displays

The SMART Board display's built-in iQ technology puts everything you need in one place, available at the touch of a finger. There's no need for wires and cables. The embedded computer offers one-touch access to SMART Learning Suite applications like SMART Notebook® lessons, SMART lab™ activities and SMART amp™ workspaces. There's also access to collaboration tools, like a digital whiteboard, built-in web browser and wireless screen sharing (iOS®, Android® and Windows® devices).

Exclusive 7000 features

SMART's exclusive Hybrid Precision **HyPr Touch™** technology greatly improves upon its InGlass™ foundation, letting you write and touch with unparalleled precision and responsiveness, while automatically detecting the different pen tray tools. There is virtually no pen lag and zero contact detect height, so it's as natural as writing on paper.

Unlike other InGlass implementations, HyPr Touch allows for SMART's unique **Simultaneous Tool Differentiation** – the use of 10 touch points, 4 pens and 2 erasers (tool, fingertip & palm) by multiple students for a truly natural, fully collaborative experience.

Pen ID™ enables writing in different colors with 4 pens, simultaneously.

Other key features

4K Ultra HD video resolution with HDMI 2.0.

Object awareness™ technology recognizes when you're using a finger (touch/drag), pen (write) or fist (erase).

SMART ink™ lets you write over websites, videos, PDFs and Microsoft Office® files and save your notes in almost any file type.

SilkTouch™ ensures a smooth, comfortable touch experience.

16 simultaneous touch, writing and eraser points on Windows and Mac®.

Access SMART software, content and applications from the on-screen menu.

Preview and switch HDMI 1 and 2, DisplayPort and VGA sources from the screen.

Dual proximity sensors automatically turn on the SMART Board when you walk in the room.

Easily accessible Convenience Panel for power, volume, mute, freeze frame, USB and HDMI inputs.

Integration with iOS (AirPlay), Android (Google Cast) and Windows (Miracast) using SMART software.

ENERGY STAR® certification saves on energy costs.

SMART Board displays have received many safety, regulatory and environmental certifications, giving you peace of mind that the 7000 series adheres to government or other regulatory requirements.
